

- B. Notwithstanding the foregoing provisions hereof regarding Social Services' responsibilities with respect to fraud and abuse, Health shall retain its jurisdiction with respect to licensure of hospitals, as defined under Article 28 of the Public Health Law, HMOs and home health agencies, and physicians, physician assistants and specialists' assistants.
- C. Health retains its authority regarding any provider's violation of Article 33 of the Public Health Law. This will also pertain when the provider's violations occur when providing services in the Medical Assistance program. For the purposes of effectuating penalties designed to deter violations of Article 33 of the Public Health Law, Social Services shall be responsible for monitoring compliance by Medical Assistance providers with orders issued pursuant to Public Health Law Article 33.

X. CIVIL PROCEEDINGS

- A. Social Services shall have authority in those proceedings involving any provider's violation of Article 33 of the Public Health Law for recovery of such sums of money obtained by a provider or other vendor as the result of fraud, abuse, or unacceptable practice in the Medical Assistance program and to perform such other acts as may be necessary to enforce other civil penalties provided for in law. Social Services shall have primary responsibility and authority for interacting with the Department of Law in the defense of those actions brought against Social Services as a result of a determination made relating to its audit functions and in any action brought seeking recovery of overpayments or penalties identified in an audit or review conducted by Social Services.
- B. Health delegates to Social Services the responsibility and authority to defend state and federal litigation involving appeals of final administrative hearing decisions issued by Social Services staff designated by Health. This delegation shall be limited to cases where the primary issue is whether the decision was based on substantial evidence, or where the fair hearing process itself is challenged, either systemically or in individual cases. Health also delegates to Social Services the authority to approve the payment of attorney's fees by Health in appropriate cases, in the course of settlement negotiations, or where directed by a court's decision.

XI. CRIMINAL PROSECUTION

Social Services shall be responsible and shall have the authority for the preparation of cases involving fraud, abuse or unacceptable practice in the Medical Assistance program for referral to an appropriate prosecuting agency or agencies. Nothing herein shall be construed as precluding Health from consulting with or referring matters to such prosecuting agency or agencies.

XII. FEDERAL ADVANCES

- A. Health will periodically obtain, in conformity with applicable Federal regulations and practices, advances against Federal funds

provided for the conduct of the functions and activities herein prescribed and authorized under the Medical Assistance program. Such funds may be received by the State Comptroller and, upon allocation in accordance with applicable provisions of law, shall become available to Health and Social Services in anticipation of Federal reimbursement to which they may become entitled as a result of reasonable and necessary costs incurred in performing the functions authorized by this Agreement.

- B. Health will submit estimates of anticipated costs and entitlement to Federal reimbursement as a result thereof for such periods in accordance with federal requirements. Such costs shall be limited to costs allowable for the functions and activities herein provided in accordance with records maintained by Health or submitted by Social Services, including, but not limited to, the names of employees, salaries paid, hours of performance and specification of such activities; provided, however, that where Health or Social Services utilize services or materials in the execution of this Agreement for purposes which include purposes other than those encompassed by Title XIX, the cost of those services or materials shall be claimed for federal financial participation in accordance with one or more cost allocation plans which meet the requirements of OMB Circular A-87 and 45 CFR 95.507.
- C. At such intervals as Health may reasonably require, Social Services will submit a report of its actual expenses in executing the functions and activities authorized under such Title XIX. Health will determine whether such expenditures were necessary for the performance of the functions authorized by this Agreement and will compare such expenditures and Social Services' entitlement to Federal funds, as a result thereof, to the advances received from Federal funds for the period. If Health's examination of such expenditures determines that any such expenditure was not necessary to the purposes of this Agreement, Health shall inform Social Services of such determination. Social Services will be given a reasonable length of time, but not less than thirty (30) days, to justify such expenditures. If Health thereafter finds that such expenses are not necessary to the performance of such purposes, Social Services' entitlement to Federal reimbursement shall be reduced by an amount so determined and subsequent Federal advances adjusted, by increase or reduction, to compensate for such expense and for any difference between entitlements reported for the prior period and the advance for that period.

XIII. STAFFING

- A. As required by Civil Service Law and regulations, Social Services shall identify and assign to Health such staff, who are substantially engaged in functions related to the supervision of the State's Medical Assistance program, in such numbers as may be required to perform the functions assigned to Health under this Agreement. Staff so identified and assigned shall have relevant background, knowledge, skills and abilities necessary to the performance of such functions and must be acceptable to Health. Staff identified for assignment to Health will have the legally

prescribed time frames from their notification of assignment to Health to protest such assignment. Health and Social Services shall have joint responsibility for determining the disposition of any such protest.

- B. On an ongoing basis, Social Services and Health shall determine the nature and extent of the staffing needs of each agency with respect to their roles and responsibilities under this Agreement and may develop such staff deployment and redeployment plans to provide for the permanent transfer of such staff as is deemed necessary to effectively perform their respective functions hereunder. Social Services and Health shall effect the permanent reassignment and redeployment of such staff as is deemed necessary to effectively perform their respective functions hereunder in accordance with applicable provisions of the Civil Services Law and related statutes.

XIV. MISCELLANEOUS

- A. Social Services and Health shall observe and require the observance of the applicable requirements relating to confidentiality of records and information and each agrees not to allow examination of records or to disclose information, except as may be necessary for the purpose of obtaining medical care and health services, assuring the propriety of such care and service, or the proper discharge of responsibilities relating thereto, and except as provided by applicable State and Federal laws and regulations.
- B. Social Services and Health shall observe and require the observance of the requirements of Title V of the Civil Rights Act of 1964.

XV. TERMS OF AGREEMENT

- A. This Agreement shall be effective only to the extent that it is found by HCFA to be permitted under applicable Federal law and to the extent that Federal aid is not impaired thereby.
- B. Social Services and Health shall designate specific personnel in each State agency responsible for continuous liaison activities, including regular meetings and summaries thereof provided to the signatories hereto, to evaluate policies that affect the Medical Assistance program.
- C. This Agreement shall run from the date hereof for a period of one year, at which time Health and Social Services shall review the Agreement for any needed changes and jointly plan to incorporate any such changes in the Agreement. If no changes are deemed appropriate, this Agreement shall automatically be renewed upon the same terms for additional periods of one year unless amended in writing by mutual agreement of the parties.
- D. To the extent permitted by law, either party may terminate this Agreement on 30 days advance notice in writing to the other party. If terminated, any funds paid to Health under the provisions of this Agreement which have not been expended or encumbered in
